For Immediate Release:

THOR- "TRIUMPHANT"

The Adventure Continues...

Vancouver, Canada born superhero, Jon Mikl THOR, returns to subdue and destroy evil hordes with a blunted metal musical hammer with his epic new powerful release... "TRIUMPHANT". The classic metal god of thunder rock, THOR is always captivating with his solid powerful band and magical entertaining mix of fantasy and real life blended with over the top muscle madness. He plays the metal, and if that is not enough, he will pick it up and bend it with brute strength. This man, by the breath of Odin, is totally awesome!

Creating his own niche in the ever-changing world of entertainment fashion has allowed THOR to span decades without ever going out of style, always retaining his integrity and staying true to his godlike status. Starting out in Vancouver he made waves in the bodybuilding world, becoming Mr. Canada and Mr. USA, always using heavy music as an intensive training tool. He blended his powerful physique with powerful rock and thus began this amazing cult legend's long reign in the fuzzy area between superstardom and the dark underground.

Along the way he has become a movie actor and producer, turning out collectible classics like "Rock N Roll Nightmare" and "Zombie Nightmare." His most recent musical appearance is in the new Canadian indie film "Fubar," released this spring at the Sundance Film Festival. He also stars in the new video "FUBAR is a Super Rocker" which is featured on MUCH MUSIC'S LOUD. He now appears in his own comic book "Jon THOR The Rock Warrior". THOR will be appearing at Comic Con in San Diego August 1- 4 promoting The new CD "TRIUMPHANT", The new comic, The movie FUBAR, The upcoming movies "The Intercessor" and "Forever and After" starring THOR as well as the new poster of Jon Mikl THOR as The Guardian painted by world famous artist Mike Hoffman. THOR has been pumping up the new projects with a recent tour taking he and his band of renegades into cities like Calgary, Edmonton, Portland, Beaverton, Chilliwack, Seattle and Vancouver. An upcoming North American tour will take place in September and October with his powerful band and team which includes Ani Kyd the super vixen female warrior on guitar, Mike O the Vampire Viking on Guitar, The amazing "Fang" with his Thunder Hawk shaped bass and GunThar "The Pounder" on drums. All seasoned performers in their own right, Fang and GunThar toured North America as the "Muscle Bitches".

THOR fans are dedicated lifelong adherents crossing all boundaries with tributes paid and played to him by classic rockers MANOWAR and speedpunkers SNFU. Mention the name THOR and they go all dreamy, spouting lyrics and air grunting riffs from songs like "Lightning Strikes," "Let the Blood Run Red," "Warhammer" and "Ride The Chariots." His vinyl is hoarded and cherished like rare art treasures and his songs are found on countless metal compilations issued through the eighties and nineties. His most recent release "TRIUMPHANT" is packed with more blood churning odes to the possibilities that lie within us all. He is beyond fashion, beyond cool and beyond art. He is THOR!

"TRIUMPHANT" the CD will be released August 1, 2002. If the CD is not in your store ask them to order it from PHD Canada. For live THOR concerts contact Courage Artists. For all other information contact ThorToen Records.

THOR, Coming to a City near You, See The Lightning, Hear The Thunder, You will never regret it.
